

LE GÉNIE DES PROCÉDÉS AU SERVICE DE L'HOMME

ACTU' #8

Nancy, 11 au 13 juillet 2017
Centre des Congrès Prouvé

Extended Paper

The SFGP2017 offers you the opportunity to write an extended paper of about 6 to 12 pages, to be published in the collection "Recent Progress in Process Engineering", a collection dedicated to congresses held in France in the field of Process Engineering.

The deadline for submitting your extended paper is May 2, 2017.

You can download on the website the model to follow for the writing of your paper :
<http://www.sfgp2017-nancy.com/recents-progres-en-genie-des-procedes.html>

Registration

Registration fees include : Access to scientific sessions (posters and oral) and to the scientific exhibition, the breaks and lunches, support for abstracts, support "GP tutorials", the welcome documents (bags, badges ...) and the visit of Nancy.

Please note that from 16th May the prices will be increased by 100 €.

Find all rates and terms on the website : <http://www.sfgp2017-nancy.com/inscription.html>

German-French day - Wednesday July 12th , 2017

SFGP 2017 Congress will be a privileged opportunity for engineers and scientists, from university and industry to share their experience in advanced aspects in chemical and process engineering in view to prospects in the area.

The event will be for us the opportunity to make you discover Nancy, its history-rich old town and the well-known Place Stanislas.

For the first time, one special German-French day will be devoted to Chemical & Process Engineering, in partnership with DECHEMA.

Main Topics

The topics selected are targeted to showing the leading role of chemical engineering for the regular citizen, as follows :

- Topic 1** : Chemical engineering for energy transition,
- Topic 2** : Product engineering, from molecule to end-use properties,
- Topic 3** : Chemical engineering and environmental issues of the 21st century,
- Topic 4** : Chemical engineering for innovation in bioprocessing ,
- Topic 5** : Focus on specific transversal topics.
